# Our Packages

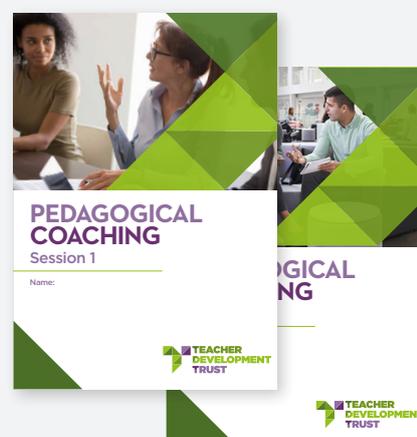

## 1. Generate insights using the 7 domains of People Powered Improvement

- Expert and peer review: select a group or all of your schools to engage in a Diagnostic Review of their culture, processes and structures. Focused on CPD, teaching and learning, our experts triangulate documentation, staff survey data with interviews and guide one or two guest leaders from other schools and the central team to gain insights into key effective features.
- Our experts work with the central team to review your offer and triangulate this with views from individual schools.
- This process generates insights for individual schools, the central team, and also fosters cross-school understanding and collaboration. It builds capacity and momentum within your leadership for future change.
- Our experts facilitate a workshop for all of the schools and leaders in the programme to review and build upon findings, generating shared understanding, building action plans.
